

SINDHU NELLURI

Course : B.Tech, IT, 2026
Email : sindhunelluri3016@gmail.com
Mobile : 6303236633
Social : Linkedin Github Portfolio
CGPA : 9.10 (83.5%)

ACADEMIC DETAILS

COURSE	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
CLASS XII	Sri Chaitanya Jr College	Andhra Pradesh Board of Intermediate Education (BIEAP)	90 %	2022
CLASS X	AP Model School	Andhra Pradesh Board of Secondary Education (BSEAP)	97 %	2020

TECHNICAL SKILLS

Programming Languages	Python3, Java, C, JavaScript
Web Development	HTML5, CSS3, React.js, Node.js, Express.js, REST APIs
Databases	MySQL, SQL, MongoDB
AI / Machine Learning	Machine Learning, Artificial Intelligence, Deep Learning (PyTorch), Vision Transformers
Tools	Git, GitHub, Postman, Microsoft Office (Excel, Word, PowerPoint, Outlook)
Core Concepts	OOP, Data Structures, DBMS, SDLC, Software Testing, Operating Systems, Linux, Networking

INTERNSHIPS

FSD and QA Automation Intern, Sure ProEd **Aug 2026 – Feb 2027**

- Currently undertaking a Full Stack Development internship at SureProEd, gaining hands-on experience in frontend and backend development.
- Working with React.js, Node.js, Express.js, MongoDB, REST APIs, and Postman while developing practical projects, including KaasuPay, a digital wallet application.
- Learning database management, API integration, authentication, debugging, and real-world application development.

Full Stack Development, Blackbucks **Jan 2025 – Apr 2025**

- Completed structured training in full-stack web development, covering HTML5, CSS3, JavaScript, Git, GitHub, and SDLC concepts.
- Learned responsive web development through guided tutorials, coding exercises, and practical assignments.
- Practiced version control using Git and GitHub while completing hands-on learning activities.
- Performed testing and debugging exercises to strengthen understanding of web application development and maintenance.
- Applied full-stack development concepts through practical assignments and self-paced learning activities during the internship.

PROJECTS

KaasuPay-Wallet – Full Stack Development **Jul 2026 – Present**

- Developed a full-stack digital wallet application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure user authentication using JWT and bcrypt.
- Built wallet management features, including balance checking, adding money, and wallet-to-wallet transfers.
- Integrated Razorpay payment gateway for wallet top-ups.
- Developed transaction history and money request features with Pay, Decline, and Cancel options.
- Designed REST APIs and integrated frontend with backend services; tested APIs using Postman.
- Technologies: React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Razorpay, Postman, Git, GitHub.

Transformer Based Melanoma Detection using Deep Learning – AI,ML,DL **Dec 2025 – Mar 2026**

- Developed a Vision Transformer (ViT)-based deep learning model for binary classification of benign and malignant skin lesions using a dermoscopic image dataset.
- Preprocessed and augmented 2,000+ dermoscopic images to improve model generalization and training performance.
- Trained the model for 25–50 epochs using PyTorch and Vision Transformer (ViT) architecture for binary image classification.
- Evaluated model performance using Accuracy, Precision, Recall, F1-score, and Confusion Matrix.
- Applied computer vision and deep learning techniques to achieve 94% classification accuracy for skin lesion classification.

CERTIFICATIONS

CERTIFICATION	CERTIFYING AUTHORITY
Python Foundation	Infosys Springboard
SQL and Relational Databases 101	IBM Skills Network
Java Full Stack	Wipro Talent NExt
Cloud Computing	NPTEL

VOLUNTEER EXPERIENCE

KKR & KSR Institute of Technology and Sciences – Placement Coordinator **Dec 2024 – Apr 2026**
